

**Glen Allen High School
Disney Music Department Trip
January 23-27, 2020**

We very excited about this opportunity to showcase our talented students in Disney! While the trip is not required or part of the students' grade in band, orchestra, or chorus, it is our hope that the majority of our students can be a part of this unique event. Performance opportunities and clinics expose the students to a variety of musical ensembles from across the country and provide us with constructive feedback from clinicians outside of our region. In addition, the trip is a teambuilding experience for students as it strengthens their bond and improves their ability to work together.

Disney contains so many great environments for music students from workshops to in-park performances. These learning opportunities are memories that will stay with our students for years. During this trip, students will have opportunities to explore the music industry and career opportunities, while gaining invaluable insight in an environment known for its quality atmosphere
